Mechatronics Design Lab – Group 06 Agreement

#	Areas of Interest	Our Agreement
1	**Communication.** Which channel will you use, and what response time do you expect from each other?	Discord server. Reply within 24 h on weekdays, 48 h on weekends.
2	**Meetings outside the lab.** How will you schedule them, and how much notice must someone give to miss one?	Schedule meetings on Discord as well. Minimum notice time for missing a meeting will be 6 hours.
3	**Work split and internal deadlines.** How will you assign tasks and rotate roles, and what internal deadline will you set before each D2L deadline?	Will assign tasks for the final deliverables (report, .slx, .mlx, etc) based on what each person did in the lab. Rotate roles by assigning different sections to each person per lab session. Internal Deadline: 12 hours before D2L deadline.
4	**Deciding when you disagree.** How does a decision get made when the team does not reach agreement, and how will you make sure quieter members are heard?	If the team does not reach an agreement, then a discussion will be held among all group members to understand all sides of the disagreement and then a vote on the matter will be held. Since there are 3 members, it is easier to know when a group member has gone quiet. If it happens, then it can be addressed by asking for their thoughts on the topic at hand.
5	**Quality bar.** What grade are you aiming for, and who checks the work against what standard before you submit?	Target Grade: A Everybody reviews the lab report 1 day before the D2L submission deadline (review should be completed by the internal deadline date), against the lab manual to see if every part that requires a response has been answered.

6	**When something goes wrong.** Write one escalation path that covers lateness, illness and unfinished work: what is the first step, within what time frame, what is the second step, and at what point do you involve the instructor?	First step: Talk/message the person directly; if there is a valid excuse, then other members can redistribute the work. Otherwise, tell them to complete the work. This should be done within 3 days of the work not being finished before the internal deadline. Second Step: If a response is not received within 3 days of the internal deadline, a formal notice will be posted on the Discord to immediately respond within 12 hours with steps to address the missing work and reasoning behind lacking communication or it will be elevated to have the instructor involved.

By signing below:

a. I acknowledge that I participated in establishing the group agreement.
b. I agree to make a good-faith effort to follow this agreement.
c. I understand that not meeting these expectations may lead to the consequences described in this agreement.
